St. Clair County Health Department Resumes Walk-in Rapid COVID-19 Testing

The St. Clair County Health Department (SCCHD) will resume "walk-in" rapid COVID-19 testing on Wednesday, January 19. Quantities are limited. We recommend testing for individuals who are sick, have symptoms, or on day 5 after exposure regardless of symptoms.

"Walk-in" rapid COVID-19 testing is a self-testing process using a testing kit located outside of the building. Testing must be done onsite at the time of visit and is completed from an individual's car (or outside of the building). Appointments are strongly encouraged. Schedule an appointment on the website www.scchealth.co or call (810) 987-5300. Testing hours are Mondays, 10:30am - 6:00pm and Tuesday through Friday, 8:30am - 4:00pm

SCCHD is still experiencing higher call volumes. Please allow up to 48 hours for a returned phone call or consider emailing COVID-19 questions to COVID19@stclaircounty.org. Additional testing locations are on our website. COVID-19 updates are posted on the SCCHD's website www.scchealth.co and on social media @scchdmi.
