## St. Clair County COVID-19 Data Update

<b>Current CDC Community Level</b>	Low
<b>Current MDHHS COVID-19 Response Phase</b>	Recovery (Post-Surge)

In communities like ours with a **low** COVID-19 Community Level, the CDC recommends:

- Stay [up to date](#) with COVID-19 vaccines and boosters
- Maintain improved ventilation throughout indoor spaces when possible
- Follow CDC recommendations for isolation and quarantine, including [getting tested](#) if you are exposed to COVID-19 or have symptoms of COVID-19
- If you are immunocompromised or [high risk](#) for severe disease
  - Have a plan for rapid testing if needed (e.g. having home tests or access to testing)
  - Talk to your healthcare provider about whether you are a candidate for treatments like oral antivirals, PrEP, and monoclonal antibodies

**At all Community Levels, people can wear a mask based on personal preference, informed by personal level of risk. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask.**

## St. Clair County COVID-19 Data

COVID-19 Statistics for St. Clair County			
Data Points	Date	Result	Trend
COVID-19 Cases (referred in prior 7 days)	6/17/2022	184	↓
COVID-19 Deaths (reported in prior 7 days)		0	

Data obtained from MDSS. Includes confirmed and probable cases. Based on referral date to the SCCHD.

Data Points	Date	Result	Trend
New COVID-19 Cases per 100,000 Residents (7-day avg.)	6/8/2022 – 6/14/2022	124.4	↓
Test Positivity		17.3%	↓
Completed COVID-19 Vaccine Series	6/7/2022	43.2%	
Initiated COVID-19 Vaccine Series		52.7%	

Data obtained from [mistartmap.info](http://mistartmap.info)

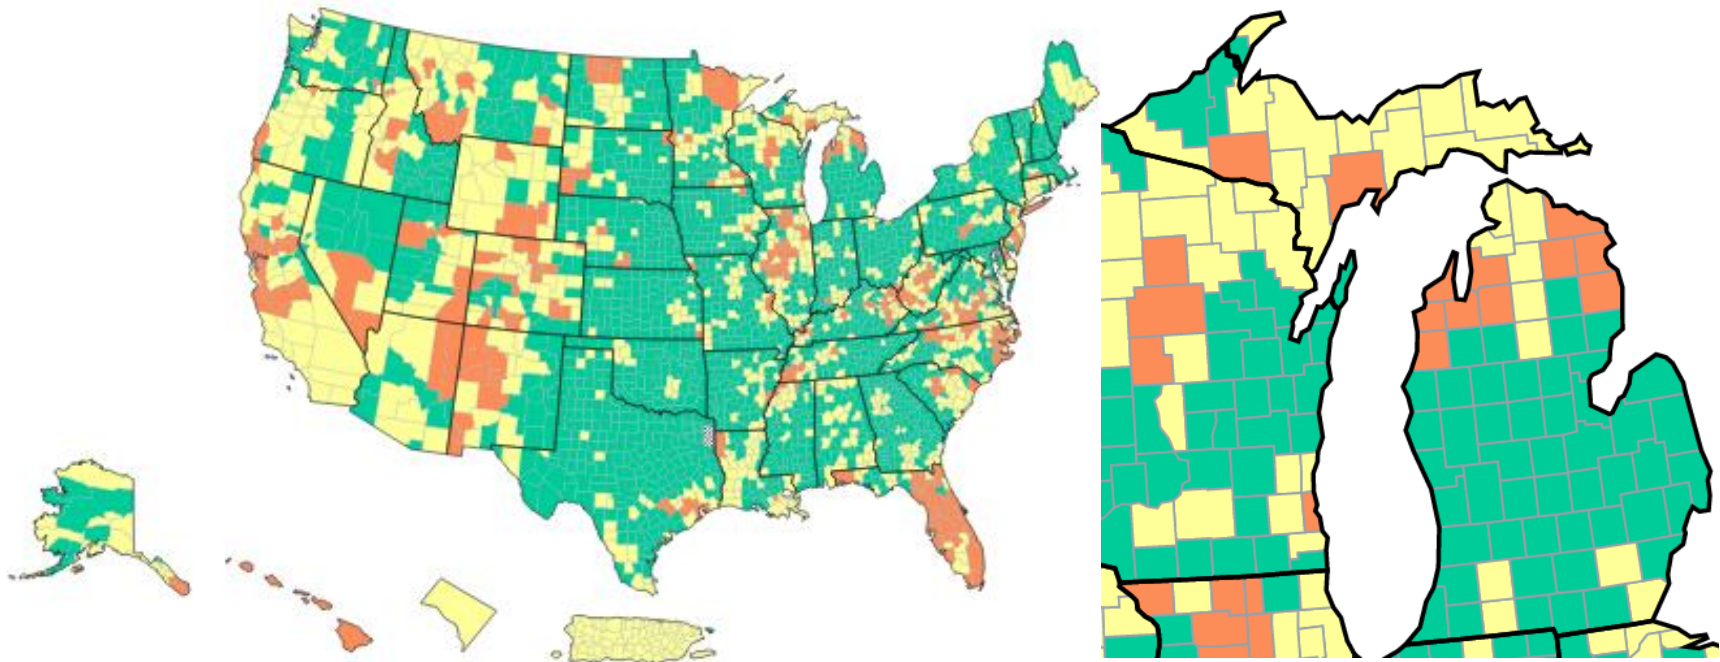

Data Points	Date	Result	Trend
New Hospital Admissions of Confirmed COVID-19 Patients per 100,000 Residents (last 7 days)	6/14/2022	7.5	↔
% Staffed Inpatient Beds in use by Patients with Confirmed COVID-19 (last 7 days)		1.9%	↔
% Staffed ICU Beds in use by Patients with Confirmed COVID-19 (last 7 days)		4.9%	↔

Data obtained from [CDC.gov](https://www.cdc.gov)

Data in this report is provisional.

### CDC Community Levels Nationally and Statewide

Data for maps below was calculated on 6/16/2022

Data in this report is provisional.

# Ongoing response to COVID-19 cycle

## Response (Surge)

A surge means rapid response by local and state public health.

- Increased supplies for testing, masking and medications.
- Increased masking, testing and social distancing efforts.

## Readiness (Pre-Surge)

A surge is expected due to a new variant, local outbreak, seasonal changes.

Expect increased illness severity and overwhelmed hospital capacity.

- Educate public regarding new risks.
- Ensure enough supplies of tests, masks and medications.

Visit [Michigan.gov/Coronavirus](https://Michigan.gov/Coronavirus) for current COVID-19 information.

## Recovery (Post-Surge)

Expect to remain in this phase for longer periods as COVID-19 evolves.

Monitor conditions that may lead to surges, such as a new variant.

- Encourage vaccines to decrease COVID-19 risks.
- Strengthen community support with local stakeholders.
- Empower community members to make best choices for individual situations.

# Make a COVID-19 Plan

Visit [Michigan.gov/Coronavirus](https://Michigan.gov/Coronavirus) for current COVID-19 information.

## Make a plan for vaccination or learn if you are eligible for boosters.

- Ages 5 and older can get vaccinated.
- Ages 12 and older can get the booster.
- Ages 50 and older, or 12 and older and moderately to severely immunocompromised, can schedule a second booster.

Learn more about vaccines and whether you're up to date at [Michigan.gov/COVIDVaccine](https://Michigan.gov/COVIDVaccine).

## Keep a supply of well-fitting masks.

Masks are helpful tools to reduce COVID-19 transmission, especially if:

- You are unwell or test positive for COVID-19.
- You have been exposed to someone with COVID-19.
- You are concerned about the risk of transmission in a particular setting. Respect that others may have a risk different than yours.

Learn more about masking at [Michigan.gov/MaskUp](https://Michigan.gov/MaskUp).

## Keep a supply of over-the-counter COVID-19 tests.

Tests are useful for early detection of COVID-19, especially if:

- You have symptoms of or have been exposed to COVID-19.
- You are traveling or will be attending a large or unmasked gathering. Test before and after attending large events.

Over-the-counter tests are available at libraries and schools through MIbackpack, also through federal distribution programs. Learn more about COVID-19 testing at [Michigan.gov/COVIDTest](https://Michigan.gov/COVIDTest).

## Learn if you are eligible for COVID-19 therapeutics.

- Talk to a primary care provider about whether you are eligible for preventative antibodies or for COVID-19 antiviral treatment if you become infected.

Learn more about COVID-19 therapeutics at [Michigan.gov/COVIDTherapy](https://Michigan.gov/COVIDTherapy).
